

CASE STUDY

Reliable Hosted Email & Managed Protection Support St. Paul School

Responsive service and stable systems help staff stay connected and productive.

CLIENT: St. Paul Private School

INDUSTRY: Private education

LOCATION: Peachtree City, Georgia

SERVICES: Preschool through 8th-grade education, faith-based academic programs, leadership development, and family-focused learning support

Executive Summary

St. Paul Private School needed dependable IT support that kept systems running smoothly while protecting devices and maintaining reliable communication tools. After partnering with Alltek, they gained responsive support, managed protection across computers, and hosted email services that work consistently for all staff.

Challenges

- Needed dependable IT support for daily staff needs
- Required reliable email communication tools
- Wanted stronger protection across all computers
- Sought a partner who responds quickly when issues come up

Alltek's Approach

Alltek focused on responsive service, proactive system management, and dependable hosted solutions that support daily operations.

Key Actions

- Implemented managed software to protect school-owned devices
- Delivered hosted email services that improved reliability
- Provided responsive support whenever needs arose
- Maintained consistent oversight of systems and performance

Solutions

- Managed protection across computers to reduce risks
- Hosted email designed for dependable communication
- Ongoing IT support aligned with daily operational needs
- A service model built on responsiveness and professionalism

Results

- Faster response when staff needed assistance
- Reliable email communication that supports day-to-day work
- Systems that remain protected and well managed
- A stronger working relationship built on trust and consistency

"Since making the switch to Alltek, we have found them to be incredibly responsive to any needs that arise. Our computers are all protected by their managed software, and the hosted email works wonderfully!"
